

Investigation

Early Pregnancy Assessment:

- Transvaginal ultrasound with GE E6.
- Ultrasound view : good
- Singleton pregnancy.
- Gestational sac : absent
- Yolk sac : absent
- Fetal heart activity : absent

Uterus

mass

This is a transvaginal ultrasound image showing a sagittal view of the uterus. The uterus is labeled 'Uterus' and contains a large, dark, heterogeneous mass labeled 'mass'. The mass appears to be within the uterine cavity or myometrium. The surrounding tissue shows typical echogenicity for the pelvic region.

midline echo

Ectopic pregnancy

size 52 mm. X 39 mm.

Right ovary

visibility : clearly seen. Normal morphology

visibility : clearly seen. Normal physiological changes.
